VITAL SIGNS, INC. DISPOSA-VIEW

THE ONLY COMPLETELY DISPOSABLE HEAD POSITIONING DEVICE

- Designed for the Prone-Positioned Patient
- Soft, comfortable, latex-free foam reduces pressure around the patient's eyes, while supporting the head and neck.
- The mirror provides the clinician with a clear view of the face, eyes, and endotracheal tube for easy monitoring.
- The slotted design allows for the endotracheal tube to be positioned on either side of the patient's face.
- Cushion and mirror in one single-use disposable.

Case of 6

Part Number: 8000HDP
